

Call for Participation: ASE 2004
19th IEEE International Conference on
Automated Software Engineering
Linz, Austria, September 20–24, 2004

hosted by
Johannes Kepler
University Linz

Keynote Speakers

Barry W. Boehm (University of Southern California, USA)
Automating Value-Based Software Engineering

Mehdi Jazayeri (Vienna University of Technology, Austria)
Education of a Software Engineer

Famantanantsoa Randimbivololona (Airbus, France)
Deploying Formal Static Analysis

Tutorials

Dov Dori (MIT)
*Supporting Automated Systems Development
with Object-Process Methodology*

George Spanoudakis, Andrea Zisman (City University London)
Software Traceability

Ivica Crnkovic (Mälardalen University)
*Component-based Software Engineering
for Embedded Systems*

Jan Jürjens (TU München)
*Automated Software Engineering of
Critical Systems Development with UML*

Tool demonstrations

Doctoral symposium

Detailed conference program and
registration information available at

www.ase-conference.org

Technical papers
selected from 183
submissions

Co-located Workshops

- Cooperative Support for Distributed Software Engineering Processes (CSSE '04)
- Formal Approaches to Testing of Software (FATES '04)
- Formal Methods for Industrial Critical Systems (FMICS '04)
- Specification and Automated Processing of Security Requirements (SAPS '04)
- Software Engineering and Middleware (SEM '04)
- Intelligent Technologies for Software Engineering (WITSE '04)

Contact: Paul Grünbacher (ASE 2004 General Chair),
Johannes Kepler University Linz, Systems Engineering and Automation,
Altenbergerstr. 69, 4040 Linz,
Phone: +43 732 2468 8867, Email: paul.gruenbacher@jku.at
